Welcome To Third Grade

Mrs. Velazquez

Room 201

Our reading series is Reading Street and is published by Scott Foresman. It includes six units which include five weekly stories. Each unit focuses on comprehension, fluency, vocabulary, and writing. Each story includes engaging activities that reinforce the weekly skills. The title of each unit is:

- This Land Is Your Land
- Work And Play
- Patterns In Nature
- Puzzles And Mysteries
- Adventures By Land And Water

The math program that is used in class is called enVisionMATH. It is a math program that balances skills along with conceptual understanding through problem based interactive and visual learning.
Our Social Studies series is My World. This series allows students to learn through storytelling, fun and engaging activities. We will explore landforms, bodies of water, climate, regions, and the ways in which people adapt and live in society.

As young scientists, we will be studying Science using the Scott Foresman series. We will explore Science using hands-on investigations, classifying, comparing/contrasting, analyzing data and the use of Discovery Education.
